Havoline® Ezy Plus 4T SAE 10W-40

High Quality Four-Stroke Motorcycle Oil

Service considerations

The JASO MA2 category defines the highest friction motorcycle oils suitable for use in most critical the oil-immersed clutch installations. Oils which meet JASO MA2 also meet in full JASO MA, so may be used wherever JASO MA is specified. JASO allows an oil to be labelled as either JASO MA2 or JASO MA, but not both simultaneously.

Always refer to the vehicle's owner's manual to determine the recommended viscosity grades for the engine.
