Motorbike Gloss Spray Wax

Description

Wax ensures a high-gloss mirror finish and freshens up paintwork superbly. Light road grime and greasy contaminants are effortlessly and quickly removed without leaving scratches. Due to its extremely light polishing action (like wiping off dust), gives all types of paint and color finishes a smooth surface with high gloss and real depth of color. The protective layer left behind smooths out scratches and protects the paint from the weather.

Properties

- silicone-free
- high gloss mirror finish
- protects against aggressive environmental influences
- super-easy to polish
- high capacity
- removes greasy contaminants and light road dirt
- excellent long-term protection

Technical data

Base	waxes
Form	liquid, aerosol
Color / appearance	beige
Odor	characteristic
Processing temperature	10-25 °C
Shelf life in original sealed container	36 months

Areas of application

An outstanding product for quickly sprucing up paintwork. Optimum sealing properties for paint surfaces to protect against the weather. For colored and metallic paints, new or appropriately prepared as well as for quickly preparing new and used vehicles in the show room.

Application

Its quick and easy application minimizes the effort required. Surfaces which are heavily contaminated must be thoroughly cleaned and dried before treatment. Shake Gloss Spray Wax vigorously before use. Apply thinly and uniformly onto the paint surfaces. Only treat one section at a time. After allowing to air for a short time, wipe surfaces with a soft cloth or Micro-Fiber cloth, Part no. 1651 polishing at the same time. If necessary, use a dry cloth for polishing.

Cellulose or paper towels are not suitable for polishing or re-polishing.

Note: Do not spray onto hot surfaces or use in direct sunlight.

Available pack sizes

400 ml Can aerosol	3039 DE-EN-ES-PT
