Pro-Line JetClean Fuel System Cleaner

Description

Highly concentrated, ready-to-use cleaning fluid. Removes deposits on high-pressure pumps, fuel rail, injectors, injection and intake valves, spark plugs and in the combustion chamber and prevents new deposits from forming. Improves engine running and optimizes the emissions values. Eliminates starting difficulties, rough engine running, poor throttle response and loss of performance. Preserves and protects the entire fuel system against wear, deposits and corrosion. Clean engines use less fuel and reduce the pollutant emissions.

Properties

- removes carbon deposits from intake valves and combustion chamber
- increases operational reliability
- exact dosage
- highly economical
- rapid cleaning
- assures precise atomization

Technical data

Base	additives, special carrier fluid
Color / appearance	blue, clear
Density at 15 °C	0,776 g/cm³
Regulation on Flammable Liquids Class (Germany)	A I
Form	liquid
Viscosity at 40 °C	<7 mm²/s
Odor	characteristic
Flash point	-18 °C

Areas of application

For all gasoline engines. For direct application via JetClean devices. In a preventative fashion at each inspection, after repairs to the fuel system or for treating problems. Tested for turbochargers and catalytic converters.

Application

Ready for use for undiluted filling of the JetClean devices. A detailed application description is given in the instructions for use for the JetClean devices.

Available pack sizes

300 ml Can sheet metal	2907 EN
300 ml Can sheet metal	20691 DE-EN-ZH
500 ml Can sheet metal	2523 DE-EN-ES-IT

Available pack sizes

500 ml Can sheet metal	21991 MXES
1 l Can sheet metal	5147 DE-EN-ES-IT-PT
5 l Canister plastic	5151 DE-EN-IT-PT
