

VALVOLINE™ MAXLIFE DIESEL SAE 10W-40 ENGINE OIL

Valvoline Maxlife Diesel SAE 10W 40 is an Advanced Fully Synthetic Diesel Engine oil with Multi-life Additives unique designed to provide superior performance in wide variety of service conditions including engines with Exhaust Gas Recirculation (EGR). Advanced product technology of Maxlife Diesel offers longer engine life, extended drain capability and keeps the engine operating at peak performance all the time. Most suitable for aged pick-up diesel engine running more than 75,000 km which requires special treat for maximum performance and protection. Capable for use in Biodiesel fuel up to B20.

MAXLIFE DIESEL ADVANTAGES

- Outstanding high temperature piston deposit control for peak engine performance
- Excellent soot dispersing controls oil thickening and extends drain interval
- Excellent Valve Train Wear for enhanced engine life and reduced maintenance cost
- Can be used in Diesel engines meeting Euro IV or earlier emission requirements not fitted with Diesel Particulate Filters (DPF)
- High and Superior TBN retention for extended drain capability

PERFORMANCE LEVEL
API CI-4 PLUS / SL
ACEA E7 -16
MB228.3, Mack EO- N PP03, Volvo VDS 3, Renault Truck RLD -2
Caterpillar ECF-2, MAN M 3275, Deutz DQC III -10, Detroit Diesel 93K215, MTU Type 2, Global DHD-1

Typical properties:

Typical Properties characteristics are based on current production. Whilst future will confirm to Valvoline specification, variations in these characteristics may occur.

Typical Characteristics	
SAE Viscosity Grade	10W-40
Kinematic Viscosity, cSt @ 100^{o}C	14.50
Viscosity Index	162
TBN, mg KOH/g	11.20
Pour Point, ^{o}C	-42
Flash Point, COC, ^{o}C	230
CCS@ -25 ^{o}C, cP	5376

This product is not likely to present any significant health or safety hazards when properly used in recommended application and good standards of personal hygiene are maintained. Reference is made to Safety Data Sheet (SDS) which is available on request via your local technical or sales representative.
