PRODUCT INFORMATION

VALVOLINE™ DCT FULL SYNTHETIC TRANSMISSION FLUID

Valvoline Dual Clutch Transmission (DCT) Fluid is a full synthetic fluid specifically formulated with friction modifiers to ensure smooth shifting performance under variable driving conditions. *

*Not recommended for Hybrid CVT units and conventional automatic transmissions

The Valvoline Dual Clutch Transmission Fluid Advantages:

- Premium synthetic base oils help minimize thermal breakdown and deposits
- Advanced anti-wear technology helps prevent gear wear
- Excellent anti-shudder durability
